

Drone Zone

Xuxin Zhang, Alex Herron, Isaac Ruble, Ari DeArriz, Andres Miller

- Drones that observe water!
- Snowbanks observed to estimate water quantity to replace outdated and rudimentary methods
- Valuable data (data = \$\$\$)
 - Water management is increasingly important
 - Accident prevention

Drone Zone

- Cost / Development
 - Software
 - Drone fleet
 - Optical sensing
- Market:
 - Government agencies
 - Local entities (farmers, government, etc.)
 - Water management companies
